

I listen to K-LOVE radio as my primary radio station. There is no other Christian radio station that I can listen to in my area. It is a great comfort to listen to K-love as I drive to and from my office in Boulder, from Aurora. Please do not replace MY Christian radion station translator service with a LPFM. I truly believe that your action to replace K-LOVE with a LPFM will negatively impact the community. We will lose out on National news with a Christian perspective. We will lose the ability to hear about community events and the outreach for lost souls and you will deprive the Denver and surrounding area with an alternative to the filth that is already filling our airwaves. K-Love is a community asset in several ways. They provide counselling services, community outreach, prayer lines, information regarding local events and the ability to reach out the the Christian community nationwide. Please do not replace my translator service with a LPFM. Thank you.
